

The **Connecticut Sustainable Business Council (CTSBC)** represents a cross-sector community of business leaders and companies seeking to advance sustainability in Connecticut. We believe in the value and benefit of collaborations with organizational partners representing various business and industry sectors. Together, we can connect and create a unified voice and a stronger case for sustainable business; generate greater market demand for sustainable products and services; and be recognized for our business innovations and commitment to sustainability.

MEMBER BENEFITS

✓ LEARN, SHARE, COLLABORATE

Meet sustainable business leaders, learn about trends in sustainability, and hear from subject matter experts at quarterly networking events and programs. Share and access information, ask advice from experts and find resources.

CTSBC is important to the investment community. The idea of investing in businesses who live the mission and values of sustainability, as promoted by CTSBC, is increasingly resonating with our diverse client base.

Kevin Porter
Senior V.P., UBS

✓ GET INVOLVED & BE HEARD

Learn about and get involved in policies related to creating a clean economy in Connecticut, and have your voice heard.

CTSBC is providing important networking opportunities for all of us to exchange best practices on sustainability.

Bryan Garcia
CEO, CT Green Bank

✓ INCREASE VISIBILITY

Gain recognition for your social and environmental efforts through the CTSBC newsletters, website, blog, webinars and events.

CTSBC is creating a structured forum that brings together different constituencies that we may not have heard about or that we can partner with in a more formal way.

Meredith Reuben
CEO, EBP Supply Solutions

✓ EXPERIENCE THE MOMENTUM

Benefit from an introductory session with CTSBC leadership to share your company's sustainability goals and objectives and explore how CTSBC can support your success.

It's important from a public relations standpoint to step out front and to be taking action, to be a leader. The timing of CTSBC is perfect.
